

ARNAV KAUSHIK

8th Grade, Souderton Charter School Collaborative
Souderton, PA

Uses his Technical Skills for a Very Noble Purpose

Arnav is a technologically gifted young man, who is also a born-leader and problem solver. He is using those qualities to make the world a better place through a program he started at his school called the ***Last Chance Repair Club***. The Club accepts donation of broken items; fixes them; and then returns them to their owners. The goal is to keep them from being discarded and ending up in landfills. Arnav's Club has fixed a variety of items, including lamps, calculators, pencil sharpeners, clocks, toys, and much more! There are no special requirements to participate in this club, so in addition to his environmental objective, Arnav is also teaching his classmates technical skills. That gives his achievement double merit!
