Dan Collins

Teaches 6th-8th grade Life Skills, Paxon Hollow Middle School Broomall, PA

Mr. Collins’ strength lies in finding and building on the strengths of his students. He knows each student has something special they are good at—something they would be happy doing—and he helps to remove any obstacles in their way.

What is one thing you have learned from your students?

“Every student has a voice, even when not heard. Sometimes a non-response from a student is more powerful than a correct answer given verbally.”
